

TekniMop Product Description

Teknimop is an excellent choice for cleaning of floors & walls in controlled environments & medical facilities.

Best performance is provided by combining the "pick-up" of microfiber, with hi liquid holding capacity.

Lightweight, ergonomic and easy to use on all surfaces; Compatible with most solvents & cleaning solutions
Microfiber provides maximum surface area, removes 99.9% contaminants in 1 pass, and will not support bacteria.

No water is used in the production of this product, 100% auto-processing, 100% recyclable

100% synthetic "non quat-binding" materials assure consistent application of disinfectant or cleaning fluid.

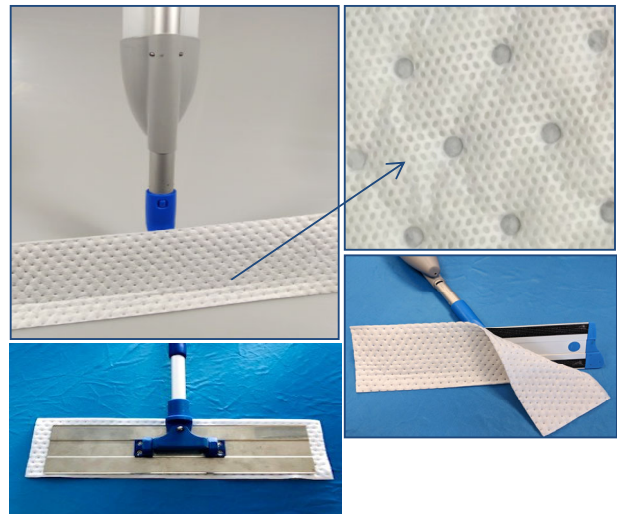

Direct "hook & loop" attachment. Best performance at economical costs
