

Swab Extension Tool

Applications:

- Precision cleaning of hard-to-reach areas where the standard swab handle length is insufficient
- Cleaning inside environments with restricted or narrow access

Features and Benefits:

- Enables access to hard-to-reach areas for precise contamination removal
- Extends reach for effective cleaning inside confined environments and enclosures
- Compatible with various swab handle types
- Clean, strong, rigid carbon fiber construction
- Autoclavable

Compatible Teknipure® Swabs:

ESD: TKS507E, TKS508E, TKS509E, TKS510E, TKS511E

Foam: TKS522F, TKS523F, TKS524F, TKS525F, TKS529F

Microfiber Woven: TKS581MW, TKS582MW, TKS584MW

Polyester: TKS552P, TKS554P

Microfiber Nonwoven: TKS600MN, TKS602MN

Microdenier over Foam: TKS572MDF

Cleanroom Environment:

- ISO Class 5 – 8 (Grades B-D)
- Class 100 – 100,000

Industries:

- Medical Device
- Pharmaceutical
- Semiconductor
- Electronics
- Aerospace & Defense
- Food & Beverage
- Biotechnology

Physical Characteristics:

Handle	Silicon, Blue
Tube	Carbon Fiber, Black
Tightening Ring	Silicon, Blue
